

Bamberg (Germany)

Educational resources on the internet

In Bavaria, all schools temporarily closed on 15 March in an attempt to contain the spread of the COVID-19 pandemic. In order to further ensure access to educational resources, the City of Bamberg established an online platform that contains exercises, lesson plans and working materials, some of them also relating to Bamberg's historic monuments.

Type of initiative: Creating or improving the digital access to heritage (when physical access is impossible)
